## PaySchools Family Caps

1. **Family Cap Calculation:** PaySchools can automatically calculate when a family reaches the family cap for the 2025-2026 school year, meaning no additional fees are required once the limit is met. The limits are:
  - \$600 for one child
  - \$900 for two or more children
2. **Viewing the Family Cap:**
  - Log in to your PaySchools Central account through your Lakota OneLogin.
  - You will see your Pay to Participate fees assigned with an amount to pay.
3. **Adding Fees to Your Cart:**
  - Add the fee to your cart (the amount of \$225 or \$300 will still be shown when you add the fee to your cart).
  - The family cap amount will automatically calculate and reduce any Pay to Participate fees to \$0 once the thresholds are met. This adjustment happens when you go to your cart to pay a fee. You will see the \$0 fee amount in your cart, but not during the fee addition process. Keep this in mind when viewing the fees in your account.
4. **Assistance:**
  - If you need further assistance or if a fee does not reduce to \$0 after reaching the threshold, please contact your athletic department.
5. **Applicability:**
  - The family cap only applies to Pay to Participate sports fees.
